COMMERCIAL BUILDINGS 39-53 WEST MARKET -- This multiple use Queen Anne brick structure forms a continuous facade at the intersection of West Market and Cherry Streets. Since its construction, c.1910, many different businesses have occupied the ground floor storefronts. Several facades retain their prism-glass transoms. Decorative ground floor arches lead to the second floor residences, where the delightful alternation of recessed balconies with projecting balustrades and oriels provides a pleasant variety of planes and textures.
